

FOURTH PROGRAM AT LONG VIEW IS TO BE ELABORATE

Patriotic Exercises, With Songs and Band Music in Afternoon and Magnificent Fireworks at Night.

CHICAGO FIRM GIVEN CONTRACT
Staging of Spectacle to Be in Charge of Experts—Independence Association Works Out Plan.

As there will be no programs issued for the Fourth of July festivities readers of The Argus are requested to clip from this issue the fireworks description and the three songs that are to be sung by the audience in the afternoon. Carry the clippings with you when you go to the park on the Fourth.

The fireworks display, as arranged by the Independence association of Rock Island for the community celebration at Long View park on the night of July 4, will be the finest ever shown in the city. There are many new pieces to be shown, new ideas and new effects. No day fireworks will be shown, this part of the program to be confined to the evening. Peterson's band of Davenport will give a high class musical program in the afternoon, and a number of local soloists will participate. The association has centered all its efforts to make the pyrotechnic display a success in the evening. The musical program in the afternoon will start promptly at 2 o'clock.

A double quartet from the music department of the Rock Island Woman's club will lead the audience in the afternoon in singing "America," "The Star Spangled Banner," and "Illinois," accompanied by Bleuer's band. The double quartet is composed of the following ladies: Mrs. J. K. Scott, Mrs. E. A. Appelquist, Mrs. William Ulmeyer, Mrs. Swan Nyquist, Miss Bessie McEnty, Mrs. Daniel Hayes, Jr., Mrs. L. Neighbour, Miss Rosabel Stewart.

The fireworks will be provided and staged by the Theatre-Duffield company of Chicago, the same concern that presented "Old Mexico" at Exposition park last week. Here is the fireworks program as arranged:

A few minutes before the display takes place, flash and sound signals will be fired as an intimation to the public that the fireworks will shortly commence.

During the interval between the flash and sound signals and the commencement of the fireworks display proper, immense war signal balloons with heavy trailers and magnesium effects, will be sent up (wind and weather permitting).

Grand Illumination of the Entire Surroundings—Adjacent to the firing grounds, with powerful colored Bengala lights and special beacons. A weird and enchanting effect.

National Peace and Patriotic Devices (size 200 square feet)—Choice of one of the following:

"The American Flag" (size 15x20 feet), showing the Stars and Stripes in brilliant colored fires, flanked upon each side with saluting batteries, paying honor to the flag of our country, which is so arranged as to appear waving in the breeze.

Ascent of Eight Bomb Shells.

Repeating Bomb Shells—Display of five 15-inch triplet bombs. Each bomb on reaching its altitude breaks three times with different effect each break.

"Frightened Fishes" Shells (four breaks each)—These shells are thrown to a great height in the sky with not a particle of fire to define their course. Then they burst, throwing over the sky a number of fishes, darting about, as if in terror, and then, as if of one mind, they rush back to the starting point. Then all is dark.

They start again after a moment, darting through the heavens. After they die down again, with a new burst a beautiful searchlight is thrown over the surroundings and violent rolls of thunder and lightning follow. Three 18-inch shells used.

Mysterious Messengers of the Air—Two 24-inch special shells. An aerial surprise. Released by the discharge of specially made bombs. Miniature airplanes, their propellers can be seen buzzing, hissing forth, sparks suddenly the propellers cease and they are lost to view, again looming up a distance away in operation.

Ground and Aerial Contortions—Created by 10 mammoth Tourbillons, ascending and revolving in the air with eccentric motion, leaving a trail of fiery globules behind them.

Rockets: Bomb Shells.

Display of Flare Grenades—French Novelty. Ten great umbrellas of fire ascending and descending, reaching a height of 40 to 50 feet.

"The Roar of the Milky Way"—Six 15-inch shells. (Is produced from a description by Kipling) by the simultaneous discharge of three cannonade and three twinkling star bombs, flickering through the clouds.

Immense Batteries of North Pole Candles—Commencing with a display of snowflakes, finishing with national colors.

Ascent of Bomb Shells—Most brilliant novelty of the season.

National Salute to the American Flag—An immense shell releases a national streamer, 1,000 feet high. During its exhibition a salute of aerial guns is fired.

Swarms of Fireflies and Lightning Bugs—Dashing through the air in brilliant flashes and creating explosions of giant fireflies. Eight mammoth Saucisson bomb shells used. The crazy action of these bugs creates roars of laughter.

Salvo of Twelve 15-Inch Variegated Bomb Shells—Containing all the latest and best effects in pyrotechny.

Mechanical Device, "The Oriental Puzzle Board"—This first appears in a closed, upright position, showing the carved and jeweled sides; then opens, and spreading to its full size (40 feet) reveals to view a gorgeous, bewitching oriental pattern, with feathery, sparkling fire, showing sparkling diamonds of dust in every direction.

Salvo of 100 Flash Lightning Cannonades—As the stars ascend there is a flashing, representing the many aerial effects.

A most wonderful effect.

Floating Pearl Bomb Shells—Immense pearls floating away in the distance.

"Salvo of Wisteria Bomb Shells"—Display the green and blue of the wisteria bloom. This number consists of 12 assorted shells, electrically discharged.

Grand Display of Three of Our New 1915 Prismatic Star and Triple Flashlight Shells (15-inch 3-shot)—Spreading high in the heavens, long, fiery tentacles in every direction, finishing with blinding flashlights.

"The Temple of the Flowery Kingdom"—Is depicted by huge columns of varicolored stars, representing flowers. A flowery bombardment next takes place. Hundreds of batteries are placed at different locations, firing upon the central tower from all directions. Five hundred candles will be used in this novel effect, containing upwards of 5,000 stars.

Fun for the Children—Choice of comic devices: "The Mouse Ran Up the Clock"—A large grandfather clock 20 feet in height, with pendulum swinging to and fro. The mouse appears and frolics up and down the clock.

"Mutt and Jeff"—Bud Fisher's popular characters in a comical diversion. Enjoyed by young and old. Or—"The Funny Acrobat"—Life-size, on the horizontal bar, performing eccentric and different evolutions to the great amusement of the youngsters.

Mammoth Mechanical Device: The Great Golden Planet Wheel—Revolving, representing the world, with seven wheels circling within, representing the principal planets of the solar system, surrounded by small, silver fires representing the stars (some 150 feet in circumference).

"Our Country's Fortune," "The Aerial Wheat Sheaf"—A beautiful aerial device, produced by the discharge of an immense 24-inch bomb shell, filling the heavens with golden dust effects.

Aerial Device: "Changing Clouds" or "Sunrise Shells"—Produced by the electrical discharge of four improved bomb shells, opening in pale blue, changing to amber and red, and finishing with prismatic torrents (1915 novelty).

Aerial Device—Produced by the electrical discharge of five bomb shells, opening in green and red, changing to blue and amber, finishing with peacock plumes and prismatic torrents (1915 novelty).

Display of Bomb Shells—These bombs leave the ground with a bright head and luminous tail. When they reach their altitude they burst into comet rain, accompanied by vivid flashes.

"Yellowstone Wonders"—Flight of 10 extra large fire geysers, four pounds each, that perform a number of evolutions on a flat surface, being attached to a small, harmless stick that guides the piece as it glides high in the air, sending out showers of brilliant fires, depicting the great water geysers of our National Yellowstone Park. This makes a grand scene.

Special Transformation Device: "George Washington's Cherry Tree"—In summer, autumn and winter, showing first the tree bedecked in full verdure, then the change of foliage to golden brown, then to falling leaves, and finally the boughs laden in the brilliant whiteness of snow.

Device: "The Chromothorpe," or "Blazing Sun"—A beautiful design in fire, with revolving rainbow wheel 20 feet in motion, 60x50 feet.

Mammoth Eruption and Shower of 1,000 Meteorites—Fired from batteries of flash and thunder shells, filling the heavens with scintillating and shimmering effects.

Display of Three Compound Repeating Shells—Representing the national colors, red, white and blue, each shell bursting three times in mid-air (three 3-shot each 18-inch shells).

Display of Bomb Shells—No marvel of radium is greater than this effect.

"A Summer Storm"—A most wonderful and awe-inspiring effect, produced by 1,000 electric flashes and detonations (six special mine bomb shells).

Ascent of Six Bomb Shells—After changing color repeatedly and floating high, each becomes an incandescent star, finishing with bouquet effect.

Ascent of 15-Inch Bomb Shells (6)—With fiery and will-o'-the-wisp effects. Aerial novelty.

Display of 10 Chinese or Octopus Bombs—Covering the heavens with gigantic spiders and blossoms.

Amusing Device: "The Bee Hive at Swarming Time"—Showing thousands of swarming bees industriously at work.

"An Aerial Rose Garden"—Produced by the flight of 10 large shells, disclosing rose bushes in green, and bursting into bloom. (1915 novelty).

Double Eccentric Device: "Screaming Flying Fighting Eagles"—A thrilling representation of two of the national birds in deadly combat. A very novel number. They are placed on spindles a hundred feet or more apart, and when fired revolve rapidly, sending out showers of silvery, sparkling spray. Suddenly the pieces break into bright illumination, fly at each other through the air, going through a number of amusing gyrations. They then retire, but suddenly rise again, screaming hideously and terminate in a cloud of chromatic splendor. Exciting and amusing. Causes roars of laughter.

European War Shells: "Bottled Daylight"—These shells suddenly burst in the heavens with a series of illumination that produce, while they last, the effect of daylight on the surrounding scene. Three shells used. This is a duplicate of the shell now being used by the German, French and English, to illuminate the trenches at night.

Ascent of Eight 6-Pound Chicago Centennial Bomb Shells—This is a special effect in immense shells that, after reaching their altitude, commence to spread, filling the heavens with scintillating effects.

Special: Wonderful Display of Shells—Produced by no other pyrotechnists. A salvo of our 15, 20 and 24-inch bomb shells. Aerial jugglery. Fiery octopus. Ninety and nine. Mother of thousands. Changing star. Etc., etc.

Discharge of Three 24-Inch Fiery Spider Bombs—Bursting into a scene which resembles a score of mighty, colossal spiders, creeping across the sky.

Two Miles of Floating Festoons—Will float across the sky, outlined with diamond jets. Produced by the discharge of immense rockets.

Special Firing Bomb Shells.

Second Magical Illumination of the Surroundings—With beacons and tri-colored bengolas. Beautiful effects.

Special Number: Shower of Bombs.

"Our Repeating Bomb Shell Cres-

SONGS FOR FOURTH

ILLINOIS.

By the rivers gently flowing,
Illinois, Illinois,
O'er thy prairies verdant growing,
Illinois, Illinois,
Comes an echo on the breeze,
Rustling through the leafy trees,
And its mellow tones are these,
Illinois, Illinois,
And its mellow tones are these,
Illinois.

From a wilderness of prairies,
Illinois, Illinois,
Straight the way and never varies,
Illinois, Illinois,
Till upon the inland sea
Stands thy great commercial tree,
Turning all the world to thee,
Illinois, Illinois,
Turning all the world to thee,
Illinois.

When you heard your country calling,
Illinois, Illinois,
Where the shot and shell were falling,
Illinois, Illinois,
When the southern host withdrew,
Pitting gray against the blue,
There were none more brave than you,
Illinois, Illinois,
There were none more brave than you,
Illinois.

AMERICA.

My country, 'tis of thee,
Sweet land of liberty,
Of thee I sing;
Land where my fathers died,
Land of the pilgrims' pride,
From every mountain side
Let Freedom ring.

My native country! thee,
Land of the noble free,
Thy name I love;
I love thy rocks and rills,
Thy woods and templed hills;
My heart with rapture thrills,
Like that above.

Let music swell the breeze,
And ring from all the trees
Sweet Freedom's song;
Let mortal tongues awake,
Let all that breathe partake,
Let rocks their silence break,
The sound prolong.

THE STAR SPANGLED BANNER.

O say! can you see by the dawn's early light,
What so proudly we hail'd at the twilight's gleaming;
Whose broad stripes and bright stars thro' the perilous fight—
O'er the ramparts we watch'd, were so gallantly gleaming?

And the rockets' red glare, the bombs bursting in air,
Give proof thro' the night that our flag was still there!

CHORUS.

O say, does the star-spangled banner yet wave
O'er the land of the free, and the home of the brave.

On the shore dimly seen thro' the mists o'er the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?

Now it catches the gleam of the morning's first beam,
In full glory reflected, now shines on the stream.

CHORUS.

'Tis the star-spangled banner! oh! long may it wave
O'er the land of the free, and the home of the brave.

Oh, thus be it ever, when freemen shall stand
Between their loved homes and the war's desolation;
Blest with vict'ry and peace, may the heav'n rescued land,
Praise the pow'r that hath made and preserved us a nation!

Then conquer we must, for our cause it is just,
And this be our motto: "In God is our trust."

CHORUS.

And the star-spangled banner in triumph shall wave
O'er the land of the free, and the home of the brave.

Our Immense Price Reducing Summer Clearance Sale

On Porch Furniture and Refrigerators, Starts Tomorrow.

Extreme reductions have been made throughout both departments, and we have made extra preparations for the giving of prompt service to all purchasers. *Special terms of credit* have also been provided for, as we expect this to be one of the largest sales in our history. Not some of the values listed below; then come to our store and see them all.

90 Lb. Ice Capacity Refrigerator \$16.58

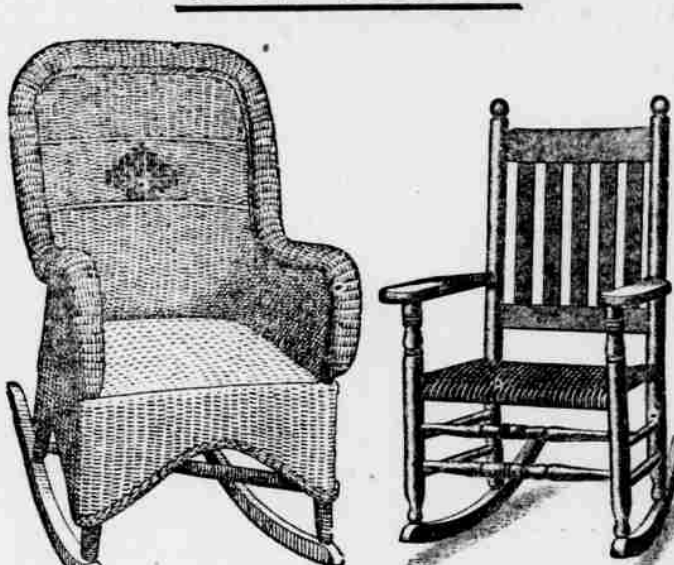

Ranney refrigerator, like cut, inside finished in white enamel, has three wire sanitary removable shelves, patent door lock and shock absorbing ice compartment. Outside woodwork finished with a water proof varnish that looks well and wears indefinitely. An exceptional value at the price
\$16.58

100 Lb. Ice Capacity Refrigerator \$21.65

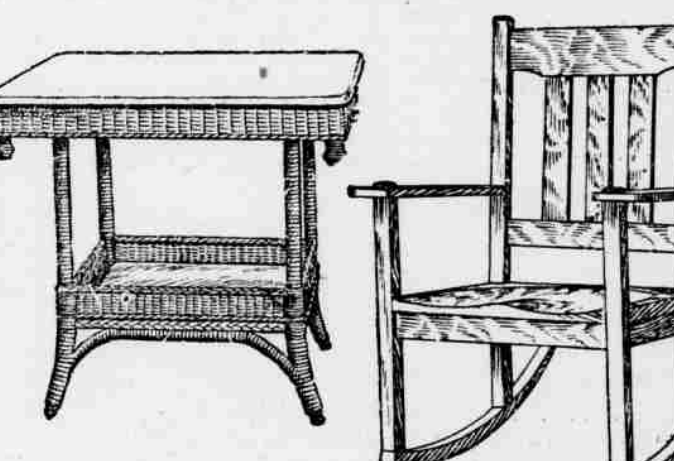

Refrigerator constructed of solid ash, finished in the golden oak. Has large ice chamber with ample provision space at the side and beneath the ice compartment. All exposed parts nickel trimmed. An exceptional value at the price
\$21.65

PORCH FURNITURE AT COST PRICES

Hong Kong rocker like cut, closely woven over stout bamboo frame. All joints metal bound. Regular \$11.00 value, sale price
\$6.50

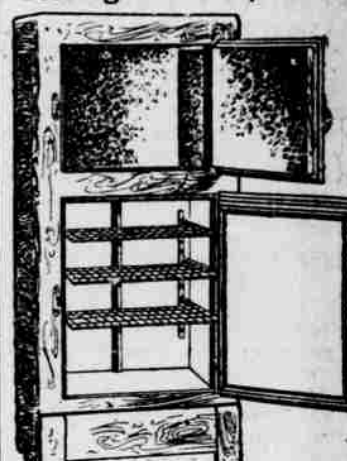

Large size maple porch rocker, like cut, finished in the natural maple color, with closely woven rattan seat, regular \$4.00 value, sale price
\$2.65

Hong Kong porch table similar to cut, woven very closely over stout bamboo framework. All corners are made extra strong by being banded together with metal strips. Regular \$8.50 value, sale price
\$5.50

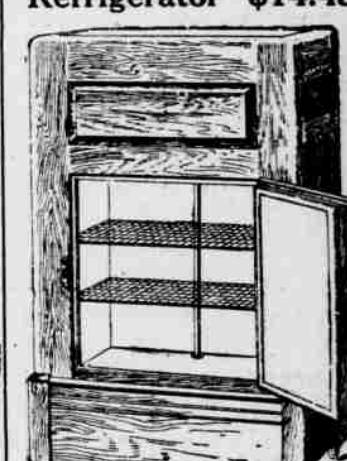

Solid oak, fumed finish porch rocker, similar to cut, made with slatted seat and back firmly bolted, an exceptional value at the price
\$1.68

80 Lb. Ice Capacity Refrigerator \$16.85

Front icing Ranney refrigerator constructed of solid ash, case which will not warp or crack. Has white enamel interior with wire removable shelves. Also has patent door lock and removable ice chamber. Regular \$23.00 value, sale price
\$16.85

75 Lb. Ice Capacity Refrigerator \$14.45

Ranney refrigerator like cut, having removable ice chamber, patent door lock, two sanitary wire removable shelves, all white enamel interior, regular \$19.00 value, our sale price
\$14.45

An Historical Fact

Even before the days of our Forefathers, extracts from the same kind of roots, herbs and barks, now used in compounding the ingredients for S.S.S., were well known and extensively used among the Indians.

Science and modern methods have only changed the Indians way of handling the material, the essential features are still in evidence in S.S.S.—Nature's Greatest Blood Purifier—and a natural sequence of the Indians favorite medicine.
